Summary

Recently graduated with honors with a Master's degree in Embedded Software Engineering from Université de Bretagne Occidentale, with practical experience in robotics, real-time systems, and low-level development. I have strong skills in C/C++, Python, and Embedded Linux, applied in multi-agent simulation and machine learning. Currently seeking a full-time position in embedded systems to apply and further develop these skills in a new professional environment.

Experience

- Mar 2026 – Jul 2026 **Research Intern**, Universidade de São Paulo - Université de Bretagne Occidentale – São Carlos, Brazil
Research on models for bearing fault detection in industrial machines (predictive maintenance)
- Apr 2025 – Jun 2025 **Research Intern**, Université de Bretagne Occidentale – Brest, France
Research on multi-robot task allocation
- Apr 2024 – Jun 2024 **Full-Stack Developer Intern**, Salaun Yvon – Brest, France
Design and development of the company's showcase website and customer request management system
- Dec 2022 – Jan 2023 **Full-Stack Developer Intern**, AEI Services – Broons, France
- May 2022 – Jun 2022 **Backend Developer Intern**, Cyllene – Plérin, France

Education

- Sep 2024 – Sep 2026 **Université de Bretagne Occidentale**, Master's degree (with honors) in Embedded Software Engineering – Brest, France
- Sep 2023 – Jun 2024 **Université de Bretagne Occidentale**, Bachelor's degree in Application Design and Development – Brest, France
- Sep 2021 – Jun 2023 **Lycée Saint Louis**, BTS (Two-year technical degree) in IT Services for Organizations, Software Solutions and Business Applications – Châteaulin, France

Skills

Programming & Systems: C, C++, FPGA, RTOS, Ada, Python, Bash, Java, Go, C#, PHP (CodeIgniter), JavaScript (React, VueJS)

Languages: French (Native), English (C1)

Interests: Robotics, Electronics, Literature
